Missouri UFOs in January

January has been a strange month. It is very cold most days so people are not out looking up as they do during warm weather. However, a couple of sightings occurred this month that are noteworthy.

1/15/2011, Moscow Mills, Missouri:

Investigator: Debbie Ziegelmeyer. The witness states that "About 3 months ago, I saw an unusually bright group of lights. They were about 100yds away in an open field. Looking at them thru binoculars they appeared to be glowing red, white, and blue. After watching for 2 weeks I decided to walk across the field with a camera and flashlight.

After about 50 yards into (the field) I approach one of them (and it) rose up about 100 feet, tilted at about 45 degrees, and headed what I thought was my way. I ran like a scared boy, dropping my flashlight. I slipped and fell on my patio, then got up and ran inside and locked the door, s h a k i n g .

They didn't appear for a few days. They came back, but the lights appeared smaller, about 2 or 3 feet in diameter.

They continue to appear nightly, usually 1 to 3 lights on north side and 1 on field to the south. One

light in particular seems to mimic my movements i.e. Left, right, up, down, around. Other strange red white and blue figures hover around above the cloud line. My kids think I am crazy, but I a m j u s t s c a r e d .

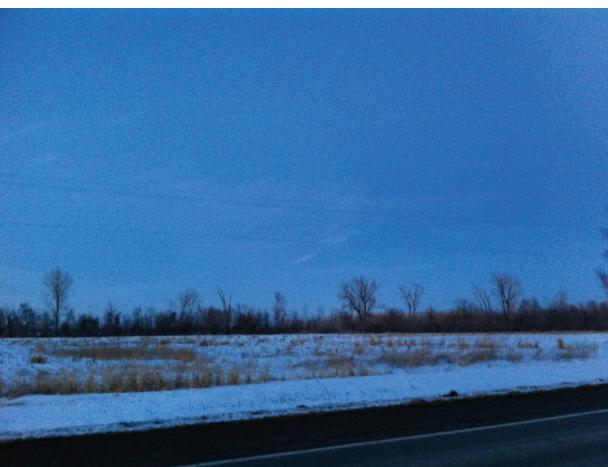

Photo of vapor trail taken by Stan Seba after phone call by Margie Kay on January 25

This has never happened to me before and I don't know what to do. this is very real and I think not reporting it would be an injustice to man kind. please study this seriously." (edited for easier reading)

1/25/11: Black dome UFO over Kansas City
Assistant State Director Margie Kay was driving to an ET Experiencers Meeting in Westport when she noticed a large black dome shaped craft flying in a zig-zag

p a t t e r n o v e r downtown KC and beyond.

From her vantage point on a high hill on 23rd street in Independence near I-435 Kay first thought the object was a helicopter, but soon realized that it was moving much too quickly to be a common traffic or news helicopter, or for that matter a military craft. The object moved quickly backwards (west) then forward (east) at a high rate of speed, then north and out of sight.

It happened so quickly that Kay did not have a chance to take a picture with her cell phone camera.

She then called Stan Seba, a MUFON field investigator who lives north of Kansas City, to see if he could see the object. Stan was able to take a picture of a vapor trail, but did not see anything else.

However, Seba said that the vapor trail looked like it was at about 2,000 feet, which is the altitude Kay said she estimated the craft to be flying.

Getting down to Business and UFOs

By Richard Hayde

There was an important meeting that took place this week (January 24 – January 27, 2011) in Riyadh, Saudi Arabia. It's was not a UFO conference specificity but rather a business affair. It was called the Global Competitiveness Forum (GCF) and it costs \$5,000.00 per ticket to attend.

For the first time at its annual conference, the GCF held a panel discussing UFOs and extraterrestrial life titled "Learning from Outer Space" Panel members included Zoaghoul El - Naggara, Stanton Friedman, Michio Kaku, Nick Pope, and Jacques Vallee. Stanton Friedman opened the discussion with the statement "Flying Saucers are real" which echoed the perspective of the panel members.

Dr. Michel Salla has written an fine article for EXONEWS titled World business leaders told flying saucers are real & extraterrestrials exist. Link to website is <http://news.exopoliticsinstitute.org/index.php/archives/890>

This article includes a link to a very informative work of art. It is titled Graphic summary of CGF discussions by Sunni Brown reveals prominence of ET contact and new energy systems. There are two drawings that have been posted to flicker. They convey a fascinating impression of how global business may be affected by ET. Link http://www.flickr.com/photos/gcf_riyadh/5384320090/in/set-72157625895042724/

One of the topics discussed at this conference and displayed in the artwork was "the three types of extraterrestrial civilizations". Dr. Michio Kaku, a contributor to UFO programs on the History Channel, has posted an excellent video on YouTube regarding this topic.

Link http://www.youtube.com/watch?v=tmXJyZoaz20&feature=player_embedded

Indeed, a fourth type of ET civilization has now been included referred to as "dark matter".

If you want to see what a \$5,000.00 admission charge will make available to you at a conference, Flickr has posted this interesting group of pictures.

Finally, it is hoped that such a meeting may give hope to the UFO community. People of the world of business normally have a keen desire to be on the leading edge of new developments. No one wants to wake up in the morning with all of their money invested in a horse and buggy business when they hear the first rattling sounds of a new machine termed the "auto-mobile" coming down the street. It may be possible that the world of business may drag the world of government (kicking and screaming) into the new era of AD – After Disclosure.

Missouri MUFON St. Louis Area News

Snow and bitter cold is the topic for this month. Unfortunately the weather caused the cancellation of our monthly meeting at Culpeppers. I attempted to contact as many of you as I could by e-mail or phone including Culpeppers but some brave souls still made their way to the meeting and were disappointed.

In the future if there is a question on the status of our meeting due to weather related issues, please call Culpeppers or me. If our meeting is cancelled due to weather, Culpeppers will know by 5:00pm. Our next scheduled meeting will be Wednesday February 16th from 6:30pm to 9:00pm.

Our topic once again will be a video of a presentation by Karyn Dolan entitled "UFOs and Media Desensitization of Children." Karyn Dolan hosts her own weekly radio show and is the wife of Richard Dolan.

January was a slow month for UFO sighting reports probably due to the snow and cold weather. Our Missouri filed reports were as follows:

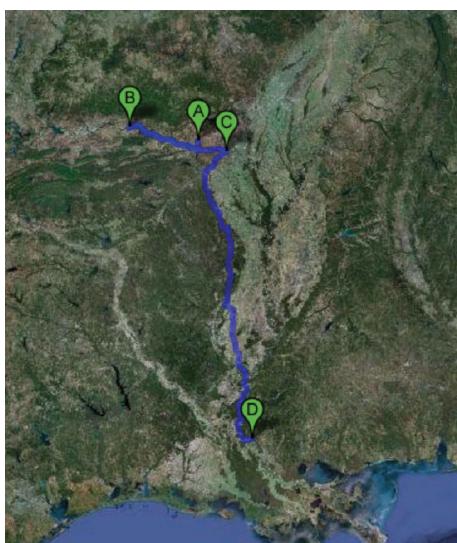

- 01/03 Calhoun: Unknown lights
- 01/06 Buffalo: Unknown lights
- 01/09 Independence: Triangle
- 01/13 St. Louis: Triangle craft
- 01/15 Moscow Mills: Sphere
- 01/25 Independence: Triangle craft
- 01/25 Independence: Black Dome

Margie Kay, Missouri MUFON's Assistant State Director and I were invited to be guest speakers at a new Missouri event this summer. Patterson, Missouri will be hosting a "UFO Revival" commemorating

the area 1973 UFO event. The program will be held on June 17th and 18th at the Patterson Community Center and include guest speakers, astronomy club activities, a NASA exhibit, book and memorabilia sales, exhibits and much more.

Margie and I will have all the details at our next monthly MUFON meetings.

As you know from last month's news letter, MUFON International is requesting yearly dues

Markers are where dead birds
were found.*

from each state. Missouri MUFON has running expenses as well.

A voluntary \$1.00 donation per person attending our St. Louis MUFON meetings is requested from those who can afford it and would be appreciated. After reading this, Missouri MUFON received a donation from Spencer Wolling to help us defer some of our expenses. Thank-you so very

much Spencer for your kindness and generosity!

There has been a lot of talk and speculation concerning the recent deaths of hundreds of birds and fish across the Midwest in the United States including Sullivan, Missouri. This is occurring in other parts of the world as well but not as widespread as in the Midwest.

I have heard several different theories including "fireworks" which the Arkansas Game and Conservation publically stated as being the answer, "a natural and normal occurrence of nature" explained as the answer by Jack Hanna while on the David Letterman show, and internet chat of everything from seismic activity to inner dimensional cause and effect, to chemical warfare, to collisions with UFOs, and secret weapon testing.

Frankly, I don't have a clue as to what the cause is but I felt that I would be negligent in my duties if I failed to bring the subject up. What should be done in a case such as this is to look for the commonalities of these events.

Let's all gather and document everything we can find on the subject from every area where this has occurred and let's see what these events all have in common. We can have a discussion at our St. Louis meeting and compare notes. Who knows, we may solve this!

A Real ET Contact Experience

Editors note: I asked the Kansas City ET Experiencers Group to share some of their experiences with Missouri MUFON. This month, Gary Northcott tells us what he found out during a hypnosis session.

Gary grew up in a suburb of Kansas City. He attended KU and got a degree in Education, then attended U.M.K.C for a Masters Degree. He was a National Merit Scholar and is currently a member of Mensa.

Most of Northcott's work has been in psychology - working with drug addicts, street gangs, manic depressives, and people with very severe mental illness problems. He had special expertise in dealing with very violent mental patients. He worked at three colleges and finished his career teaching Sociology, Psychology, and Public Speaking at a local college.

Gary has had major health problems and is now a retired senior citizen who is disabled.

Gary's hobbies and interests include: being a performer at Kansas City's Renaissance Festival for 26 years, publishing a Fantasy Novel, Listening to classical music, reading an enormous amount of books from the city library, fantasy role playing gaming, and his psychic and extraterrestrial experiences, which include being aboard UfOs, remote viewing, and telepathic conversations with ETs.

Gary is a regular attendee at the K.C. ET Experiencers Group Meetings, and always has something interesting to share.

Gary kept a journal of all my experiences. He says that "This is one of my early experiences. By this time I have met two Spirit guides who are extraterrestrials and have begun teaching me. I ask one who prefers to be called Chiang to put me in touch with another I have met. He is a tall white from Altair. This takes place during a hypnosis session with a local clinical hypnotherapist."

Event xxi

I ask to speak with the blonde alien I have talked to before. He comes.

I ask a series of questions based upon things I have read. He continually refers to me as "Earthling". He confirms the following:

There are human bases on the moon. Two of them. One is a small base on the near side, the other is a large base on the far side. Humans have placed weapons in space that are particle beam weapons mounted on satellites. These currently point earthward and are intended for world domination. They can be swung around and point spaceward. Mars is being terraformed by alien species.

I tell him that our leaders are corrupt and cannot be trusted. He says they know that.

I suggest that mankind would be helped if his people dealt directly with citizens instead of government leaders. He says some of that is being done.

I ask if our leaders are afraid of his people. He chuckles (first sign of emotion from him.) Then says that "They think they can control us."

I ask him what star system he is from. He says "Altair IV" which I find funny because of the Sci Fi film "Forbidden Planet."

I ask if Billy Meier's stories of contacts with Nordic aliens from the Pleiades are true. (One armed Belgium farmer who is highly controversial.) He says YES. Very loudly and with a cartoon like print word coming from his mouth.

I ask if I will ever be permitted to meet one of his people face to face. He says that I have been put on a list for possible contact.

I ask why me and am told they communicate telepathically and I am developing psychic skills and this makes me eligible.

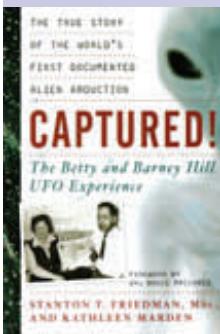

I ask him what his name is. He give me something utterly unpronounceable.

I ask if there is something I can call him in my language. He chuckles again, and says I may call him "29". He then leaves. End of scene.

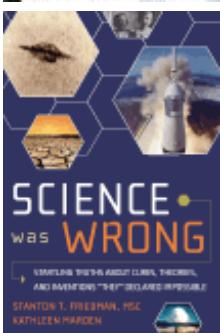

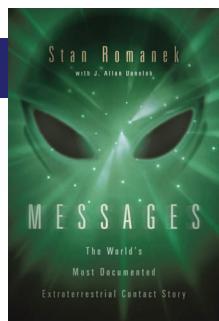

I have no idea what to make of this conversations. Many of the answers were either what I expected to hear or what I wanted to hear.
